ITEM	Essential Build	Optional	Our Price £	NOTES
Chassis and Bodyshell Packages				
Stage 1 Complete Chassis Complete chassis with mounts for Jaguar front XJ and narrowed Jaguar rear XJ suspension, brake and fuel line union tags, hand brake mounting points, rear body hoop with cockpit spigots, seat belt mounting points, door lock mounting plate, split front body hoop with steering column mounts, front screen and scuttle supports, door hinges, radiator, anti-roll bar and petrol tank mounts. Included in the cost is a comprehensive assembly manual.	*		£2755.00	Engine and gearbox mounts are not included, but can be supplied at extra cost.
Basic Chassis	*		£1895.00	Has mountings for front and rear suspension, seat belt mountings and firewall hoop with door hinge brackets.
Engine and Gear Box Mounts Engine and gearbox mounts installed with a jig at the time of chassis construction to fit Chevrolet, Ford, Rover V8 or Jaguar V12 & 5 speed Toyota gearbox.	*		£125.00	Super strength with removable gearbox cross member.
Stage 2 Rolling Chassis/Body The customer's front and rear suspension is fitted to the chassis using our suspension packages, the engine and gearbox mounts are fitted along with all brake lines (static and flexible), steering rack, steering package and brake pedal box. The body is then mounted to the chassis, interposed with rubber insulating strip and is located with 56 mounting points.		*	£6099.69	With Stage 2 you can supply your own engine/gearbox, front suspension, rear suspension and steering column, or we can supply them for you. This is a popular package because the essential mechanical work is completed by us, the bodyshell fitted and the necessary holes are drilled.
Body Complete body consists of a one-piece body, boot, bonnet and doors (all double skinned, but not fitted). All internal mouldings, wheel wells, boot, firewall and floor are finished in a gloss black and need not be painted. These are all bonded to the main bodyshell using an elaborate jig system to ensure consistency and accuracy and are pre-drilled for mounting to the chassis. Included are separate gearbox and prop, shaft tunnels.	*		£1895.00	The doors contain steel safety beams with mountings for hinges, anti-burst door catches and hood side screens. A bonnet without scoop is also available.
Firewall Insulation		*	£55.00	This reduces heat flow and noise through the firewall. This must be ordered with the bodyshell and is fitted by us at the factory.

ITEM	Essential for Build	Optional	Our Price £	NOTES
Suspension Packages				
Front Suspension Package 1 pr Spax adjustable coil over shocks and fitting kit 2 Wishbone bottom tie plates	*		£239.00	Adjustable coil spring/damper units are included and allow adjustment of suspension ride height and damper rates. A pair of lower wishbone tie plates are also included to replace the now obsolete standard spring cup. Our front suspension layout uses the standard Jaguar XJ wishbone complete with rubber bushes, location bolts and camber shims. So save your standard parts. Most of the standard Jaguar parts supplied by us from stock.
Anti-roll bar		*	£59.00	Special front anti-roll bar designed to work with our front suspension package to improve handling.
Rear Suspension Package Top shock mounting shafts, spacers and nuts Bottom differential and pinion support plate and bolts Front and rear tie straps Stainless steel locking wire	*		£91.40	The rear suspension package includes 2 upper damper mounting shafts and nylock nuts, plus a length of stainless steel locking wire to secure the original differential bolts. Standard rear radius rods from your axle assembly are used, so the rubbers need to be in good order - we can supply replacements if necessary.
Narrowing of XJ lower wishbone and specially made drive shafts	*		£316.00	Your lower wishbones strengthened and narrowed, special narrow heavy duty drive shaft centres to replace your Jaguar parts.
Rear Anti-Roll Bar Assembly		*	POA	Specially designed anti-roll bar with bushes, links and brackets. Please note welding of brackets to chassis necessary unless ordered with chassis.
Rear Spax Shock Absorbers - adjustable damping rate and spring height	*		£72.39 each	Can be obtained from a specialist supplier.
Rear Springs - wound to suit weight of car	*		£22.00 each	Can be obtained from a specialist supplier.
Modification to rear radius arms		*	£22.95 pair	This modification is only required if the underfloor exhaust system is fitted. It can be carried out by the builder and instructions for this are in the assembly manual. If we carry out the work we will fit new rubber bushes if necessary and charge only for the bushes at current prices.
We will be happy to supply factory or pattern spares for your suspension.

ITEM	Essential for Build	Optional	Our Price £	NOTES
Steering				
Steering Package This includes 1 splined shaft and 2 universal joints, one of which is specially adapted to the Ford rack. Also included are special spherical rod ends with spacers and converters, together with special high grade bolts to attach them to the Jaguar steering arms. The spacers are TIG welded to your steering arms in our workshop.	*		£218.50	This package does not include the steering rack.
Steering Rack	*		£69.00	The steering rack is a Ford unit, supplied by us on an outright basis complete with special pinion to allow the use of our normal steering UJ ready to bolt to the Python chassis - alternatively it can be sourced by the builder.
Steering Wheel 15" -Replica of original wood rimmed alloy wheel		*	£129.50	Supplied with boss to suit Triumph column. Superb finishing touch to cockpit.
Brakes				
Brake Line Kit This contains Teflon lined stainless braided hoses and cupro nickel corrosion-proof chassis lines. Together with all necessary connectors and T pieces, chassis clips, stop lamp switch and bolts for mounting the T pieces.	*		£104.48	We recommend the use of silicon brake fluid which we stock for use in the Python.
Brake Pedal Box (Automatic)	*		£175.00	The pedal box assembly consists of a stamped and welded box fitted with an easily removable, fully bushed brake pedal. It accepts our special brake servo, the standard Jaguar throttle pedal and has a removable steering column support.
Optional Left Foot Rest		*	£29.95	For use with above. Helps brace driver when driving enthusiastically.
Brake Pedal Box (Manual)	*		£232.76	As for auto pedal box, plus a specially developed clutch pedal (fully bushed) and provision for a hydraulic master cylinder.
Brake Servo	*		£70.95	A specially developed unit designed to accept the standard Jaguar master cylinder - check for compatibility with front brake - and then attached to our pedal box.

ITEM	Essential GIB V8	Optional	Our Price £	NOTES
Servo Manifold Connector	*		£9.95	A 3/8" BSP Taper to 3/8" ID Hose connector.
Servo Heat Shield <i>N/A AM STAINLESS</i>	*		£49.95	Helps prevent premature servo failure. Could be fabricated by the builder.
Brake Reservoir Bracket - complete with captive plate and fixing bolts <i>AM TEMPLATES.</i>	*		£23.95	Designed to accept the Jaguar brake reservoir (available separately from us). Could be fabricated by the builder.
Handbrake Levers	*		P.O.A.	The Python uses an MGB handbrake lever - supplies of new handbrake levers are no longer available and we suggest that second-hand units are sourced - secondhand levers are sometimes available from us.
Handbrake Cable	*		£26.95	The cable connects the MGB handbrake to the Jaguar rear suspension
Silicone Brake Fluid		*	£18.95	High quality brake fluid, will <u>not</u> attack paint and does not absorb water.
Clutch				
Hydraulic Clutch Kit for Chevrolet V8		*	£110.00	Consists of a specially developed slave cylinder bracket which bolts to the Chevrolet bell-housing, together with an adjustable push rod and the modifications to the customer's clutch fork.
Clutch Master Cylinder	*		£56.95	Fitted with special adjustable push rod, remote reservoir, bracket and fittings.
Flexible Clutch Line	*		£24.95	Teflon lined, stainless steel braided hose, complete with connecting banjo, fluid, bolts and copper washers. Specify left or right hand drive.

Unique Autocraft - price list

prices and specifications subject to change without notice : All prices ex VAT and Delivery - January 92

ITEM	Essential for Build	Optional	Our Price £	NOTES
Slave Cylinder	*		£28.95	Compatible with other UA parts for the Chevrolet and Ford clutch kit.
Hydraulic Clutch Kit for Ford V8			£89.50	Includes Brackets, Push Rod (Adjustable) and Hardware.
Accelerator				
Accelerator modification		*	£33.50	Modifies Jaguar accelerator pedal for an adjustable rubber pedal allowing use with either manual or auto pedal box - could be carried out by the builder.
Accelerator Kit	*		£21.95	Cable, return spring and stainless steel carburettor bracket to suit Jaguar pedal and Holly or Carter carburettor.
Fuel Tank & Equipment				
Basic Fuel Tank	*		£195.00	Mild steel, fully baffled with neck and provision for fuel gauge.
Fuel Tank Mild steel 18 gallon fuel tank Stainless steel fitting straps Quick action filler cap Rubber strip		*	£291.00	An option of mild or stainless steel is used in the construction of the tank and internal baffling, a fuel pickup pipe, drain plug, gauge sender unit, filler pipe and Quick Action filler cap are included. The PYTHON fuel tank is L-shaped, of 18 gallon capacity and is mounted on the chassis using the fitting kit and mounts provided.
Stainless steel tank, including hardware as above		*	£398.45	
Fuel Pump Regulator	?	*	£26.20	For use with our Fuel System, adjustable from 0.5 to 5.5 on low operating pressure carburettors.
Rubber Fuel Line Kit	*		£29.95	A set of 3 high quality rubber hoses with crimped removable brass unions on the ends, connects fuel tank to chassis fuel line via filter and pump, complete with PTFE tape for unions.

Unique Autocraft - price list

prices and specifications subject to change without notice : All prices ex VAT and Delivery - January 92

ITEM	Essential Or Birth	Optional	Our Price £	NOTES
Fuel Filter	*		£22.95	This unit is fully compatible with our Fuel Line Kit. Consisting of stainless steel chassis bracket, alloy filter head and high quality replaceable filter canister.
Replacement Element		*	£8.95	For use with above.
Static Fuel Line Kit	*		£43.98	The main fuel line from the tank to the front chassis mounting tag. Complete with hardware.
Holley Electric Fuel Pump		*	£79.95	A high quality American pump for street use with a capacity of 67 gallons per hour, to suit all engines. <i>✓</i>
Ancillary Items				
Oil Cooler Mounts <i>✓✓</i>		*	£14.95 <i>✓</i>	Two stands and captive bolts designed to fit into the oil cooler duct allowing the cooler to be positioned centrally in the opening.
Oil Pressure Adaptor - Chevrolet V8		*	£17.95	A "Y" type adaptor to enable fitting of relevant sender units to engine.
Water Temperature Adaptor Inlet Manifold or Cylinder Head Chevrolet V8		*	£4.95	1/2" BSP to 1/8" BSP adaptor.
Transmission Cooler		*	£44.85 <i>✓</i>	10 Row Cooler including elbows.
Transmission Cooler Line Kit for TH350 and TH400 GM Transmissions		*	£33.20	All Solid and Flex Lines including Stainless Steel Pipe Clips.
Radiator and Plumbing				
Radiator	*		£235.49	An exchange service is available using an XJ6 Series One radiator as a base. This is narrowed and re-cored using either a 3 or 4 row core (depending on the size of the engine). Any additional mounts or water hose fittings are completed at this stage.
Radiator "De Luxe"		*	£275.49	Description as for radiator and lower radiator hoses (2) and 90° steel elbow.

Unique Autocraft - price list
